The **CONTOUR**'s slightly bevelled panel closes over the flange, thereby creating a truly modern appearance. A hidden magnetic closing mechanism gives the **CONTOUR** an elegant and subtle finish. Due to the choice of materials used and shortened assembly time, this door is considered an economical option. Installation is quick and easy. It is suitable for application on walls or ceilings composed of any material

DESCRIPTION

- Material:** 16 gauge steel frame and door
- Hinge:** Concealed double arm pantograph system
- Lock / latch:** Concealed magnets for locking mechanism
- Finish:** High quality white powder coat finish. May be used as is or painted over with finished paint coat
- Packaging:** Individually wrapped. 1 per box

POPULAR OPTIONS

[see p. 20-23 for complete list of options]

- Material:** Galvanneal steel
- Lock / latch:** Key operated cylinder cam latch, hex head cam latch, pinned hex head cam latch, handle operated cam latch, mortise preparation for cylinder (cylinder optional).
- Retaining cables:** For doors > 12" X 12"
- Gasketing:** Neoprene

EDG-GYP

FLUSH REMOVABLE ACCESS DOOR WITH DRYWALL BEAD FLANGE

The **EDG-GYP** is practical with removable, concealed spring and pin type hinges and push-to-close latches. Once the corner bead plastered, the door becomes almost invisible. The **EDG-GYP** is durable and economical since the door and the frame are composed of steel based materials. It is perfect for application on walls or ceilings composed of any material

DESCRIPTION

- Material:** 16 gauge cold rolled steel
Frame with corner bead flange
- Hinge:** Concealed spring hinge
- Lock / latch:** Concealed push latch
- Finish:** Rounded mitered corners
High quality white powder coat finish
- Removable door:** Yes. (safety cables)
- Packaging:** Individually wrapped. 1 per box

POPULAR OPTIONS

[see p. 20-23 for complete list of options]

- Material:** Stainless steel, galvanized steel

The **GFRG** is specially designed with rounded corners for a smooth finish. Since it is constructed with lightweight, glass fiber reinforced gypsum, it blends perfectly with drywall surfaces. Once painted, it creates an aesthetically pleasing finish. The gravity based panel closure, with removable door, makes it ideal for drywall ceiling applications

DESCRIPTION

- Material:** Lightweight glass fiber reinforced gypsum
- Hinge:** No hinge
Gravity based closure and removable door
- Finish:** Rounded corners (radius finish)
To be primed and sealed on site
- Packaging:** Individually wrapped. 1 per box

POPULAR OPTIONS

- Style:** Square corners
Hinges
Round door
- Lock / latch:** Cylinder, screwdriver latch
- Gasketing:** Gasketing (neoprene gasket).

The **ALUMI** is solidly built with an extruded, mill finish aluminum frame and door contour with a moisture resistant drywall insert. The gasketed door perimeter restricts air and smoke infiltration. A concealed free pivot hinge and retaining cables allow for easy removal of the door; and the locking mechanism consists of hidden push latches

DESCRIPTION

Material: Extruded mill finish aluminum frame and door contour with moisture resistant drywall insert

Hinge: Concealed free pivot hinge, retaining cables and removable door

Lock / latch: Concealed push-latch

Removable door: Retaining cables included

Packaging: Individually wrapped. 1 per box

POPULAR OPTIONS

Lock / latch: Cylinder or screwdriver latch

Gasketing: Perimeter gasket

Finish: Factory taped, primed door

Unlike most existing access doors, the **FLE** door is adjustable to the size of the opening; offering a flush-mounted, metal panel that is durable and versatile. Installing the door is quick and easy and requires minimal tools. The **FLE** door is also aesthetically superior and it is offered in two models, one with a screwdriver lock and one without.

Front view

Rear view

Always install the security cables

DESCRIPTION

- Material:** Door panel: 20 gauge cold rolled steel
Frame: 24 gauge galvanized steel frame with notched knock-over tabs
Corners: polymer
- Lock / latch:** 4 magnets, 1 per corner
- Cables:** 2 security cables
- Finish:** high quality white powder coat primer
- Packaging:** individually wrapped, 4 per box
- **FLE-PRO:** individually wrapped, 1 per box

The **CTR** is the **newest generation of all purpose access doors**. Easy to install, it will blend into all non-rated surfaces better than any other door. Its special European type hinge allows the door, with its beveled edges, to close over the flange thus avoiding the additional labor to mud or plaster over the flange. The CTR features a truly cohesive appearance due to its well-integrated design of concealing the space between the panel and the flange.

**A LABOR SAVING
alternative to doors
with DRYWALL FLANGES**

“No need to mud or plaster”

DESCRIPTION

Material: 16 gauge cold rolled steel
Hinge: concealed, exclusive hinge design
Lock / latch: screwdriver operated cam latch
Finish: high quality white powder coat primer
Packaging: individually wrapped, 1 per box

POPULAR OPTIONS

[see p. 20-23 for complete list of options]

Material: stainless steel 304 #4 (brushed finish), galvaneal steel
Lock / latch: key operated cylinder cam latch, hex head cam latch, pinned hex head cam latch, handle operated cam latch, mortise preparation for cylinder. (cylinder optional)
Gasketing: neoprene gasket

RMD ACCESS DOOR

Removable access door with hidden flange is ideal for confined spaces where access is limited or where a pivoting door panel cannot be used due to an obstruction.

CTR HIDDEN FLANGE

CONCEALED APPEARANCE

**Your odd sizes:
Made in 5 days**

The **AHD** is designed for a **quick and easy installation** on non-rated vertical and horizontal surfaces made of drywall or any other type of material. Its rounded mitered corners, concealed pin hinge and 3/8" return all around the door make it the sturdiest door on the market. The AHD prevents sagging, as compared to flat door panels, and requires fewer locks.

DESCRIPTION

- Material:** 16 gauge cold rolled steel
Hinge: hidden pin hinge
 continuous piano type on doors over 24" (height or width)
Lock / latch: screwdriver operated cam latch
Finish: high quality white powder coat primer
Packaging: individually wrapped, 1 per box

The **PFI** is **insulated with 2" thick mineral wool** and can be used on fire rated **walls** and **ceilings**. It comes with a 1" flange for an easy flush installation on any type of surface. As per **UL** and **NFPA 80** standards, once the installation is complete and the provided springs are hooked to the back of the panel, the door will be self closing and self locking. The largest fire rated PFI doors available for vertical and horizontal installations are respectively: (48" x 48" or 2304 sq. in.) and (24" x 36" or 864 sq. in.).

DESCRIPTION

FIRE RATING: For installation in vertical wall assemblies:

CERTIFIED TO STANDARDS: UL 10C, UL 10B (2009), NFPA 252 (2012), CAN/ULC S104 (R1985), CAN/ULC S104 (2010).

RATING ACHIEVED: 3 hours

MAXIMUM SIZE: 48" wide x 48" high (1219 mm x 1219 mm).

Maximum area of 2304 in².

Tolerance on height and width limitation is ± 3" (76 mm) as long as the area does not exceed 2304 in².

TEMPERATURE RISE: 250°F (121°C) after 30 min.

450°F (232°C) after 60 min.

FIRE RATING: For installation in horizontal ceiling assemblies:

CERTIFIED TO STANDARDS: ASTM E119 (2012), CAN/ULC S101 (2007). RATING ACHIEVED: 3 hours in non-combustible construction.

1 hour in combustible construction.

MAXIMUM SIZE: 24" x 36" (610 mm x 914 mm) (hinges and latches on the side of 36"), tolerance on dimension limitations are more or less 3" (76 mm) as long as the area does not exceed 864 in². If door size exceeds 24" x 36", the latter is not fire-rated for ceiling installation.

All dimensions are written in the following order: Width x Height.

TEMPERATURE RISE: Not applicable.

Material: 16 gauge cold rolled steel frame and 20 gauge galvalneal steel door

Insulation: mineral wool

Hinge: continuous piano hinge

Lock / latch: self latching tool-key operated slam latch and/or ring operated slam latch, both included

Inside panel release: standard on all doors over 12" x 12"

Automatic panel closer: standard on all doors

Finish: high quality white powder coat primer

Packaging: individually wrapped, 1 per box

POPULAR OPTIONS

[see p. 20-23 for complete list of options]

Material: stainless steel #4 (brushed finish)

Lock / latch: handle operated slam latch, mortise preparation for cylinder (cylinder optional), hex head slam latch, mortise deadbolt lock

Masonry anchor: available on all sizes

PFI-HS SECURITY

for high security PFI-HS: optional 16 gauge cold rolled steel frame and 14 gauge galvalneal steel door

LEED ready: This product contributes to LEED® credits.

* The latch release allows the opening of the door from inside.

Authorities Having Jurisdiction (AHJ) should be consulted in all cases as to the particular requirements covering the installation and use of fire rated access doors.

**Your odd sizes:
Made in 5 days**

The **PFU** is designed to be installed on fire rated ceilings only. It can easily replace spring loaded models like the PFI. The door panel, which does not exceed 89 degrees of upward opening, falls back by law of gravity into its locked position as required by fire certification standards. Holding the door open while climbing through it becomes much easier with no springs to deal with. The largest fire rated PFU available is: (24" x 36" or 864 sq. in.).

DESCRIPTION

FIRE RATING: For horizontal ceiling assemblies only: CERTIFIED TO STANDARDS: ASTM E119 (2012), CAN/ULC S101 (2007).
RATING ACHIEVED: 3 hours in non-combustible construction. 1 hour in combustible construction.
MAXIMUM SIZE: 24" x 36" (hinges & latch on 36" long sides) (610 mm x 914 mm). Tolerances on dimension limitations are $\pm 3"$ (76 mm) as long as the area does not exceed 864 in².
TEMPERATURE RISE: Not applicable.

Material: 16 gauge cold rolled steel frame and 20 gauge galvalume steel door
Insulation: mineral wool
Hinge: continuous piano hinge allows opening to 89°
Lock / latch: self latching ring operated slam latch inside and a hex head slam latch outside
Finish: high quality white powder coat primer
Packaging : individually wrapped, 1 per box

POPULAR OPTIONS [see p. 20-23 for complete list of options]

Material : stainless steel #4 (brushed finish)

LEED ready: This product contributes to LEED® credits. Visit www.cendrex.com for more information.

Wrapping of stud required for 2 and 3 hour ceiling applications only

Authorities Having Jurisdiction (AHJ) should be consulted in all cases as to the particular requirements covering the installation and use of fire rated access doors.

The **PFN** is **not insulated** and can **only be used on fire rated walls**. It comes with a 1" flange for an easy flush installation on any type of surface material. As per **UL** and **NFPA 80** standards, once the installation is complete and the provided springs installed, this door will be self closing and self locking. It should not be used in situations where protection against temperature elevation is required. The largest fire rated PFN door available is: (36" x 36" or 1296 sq. in.).

Table of standard sizes [other sizes available upon request]

The **TRH** roof hatch, made of galvalume steel, is designed to offer convenient access to building roof tops. It is equipped with gas cylinders providing an effortless opening of the door panel. Its heavy duty design and insulation ensure long life and low maintenance.

DESCRIPTION

- Cover:** 14 gauge galvalume steel with 1" fiberglass insulation
- Curb:** 14 gauge galvalume steel with 1" fiber board insulation
- Seal:** "D" - foam adhesive gasket provides a flush and tight fit
- Components:** 2 gas cylinders, retaining bar handles
- Finish:** high quality white powder coat primer
- LEED®:** When painted white, the TRH could contribute to meeting SSc7.2 (Heat Island Effect) requirements for highly reflective roofing materials.

Options are available for ALL ACCESS PRODUCTS to better accommodate your needs and to provide specification compliance. In this section (p. 20-23) you will find the list of options, their codes and the complete chart.

- **OPTIONS:** Divided into 4 sections: LOCKS AND LATCHES, HANDLES, MATERIALS AND OTHER OPTIONS.
- **OPTIONS CODES:** Codes are in blue for easy identification and ordering purposes.
- **OPTIONS CHART:** Designed to inform you of the various options available for each product.

Please visit our website at www.cendrex.com for up-to-date options information.

MEDIUM AND HIGH SECURITY LOCKS AND LATCHES:

85 - MORTISE SLAM LATCH

The panel will accept cylinders 1 5/32" in diameter from most lock manufacturers (Best, Ilco, Corbin, etc). Enables the slam latch to operate with matching project hardware.
(CYLINDER OPTIONAL - 85C)

15 - MORTISE CAM LATCH

The panel will accept cylinders 1 5/32" in diameter from most lock manufacturers (Best, Ilco, Corbin, etc).
(CYLINDER OPTIONAL - 15C)

C - CYLINDER FOR DEADBOLT LOCK OR MORTISE

Keyed different is standard.
Keyed alike is optional. - CKA

10 - KEY OPERATED CYLINDER CAM LATCH

Recommended for security access or where locks are required for controlled access.
Keyed alike is standard.
Keyed different is optional. - 10KD

40 - MORTISE DEADBOLT LOCK

Recommended for high security applications. The panel will accept cylinders 1 5/32" in diameter from most lock manufacturers (Best, Ilco, Corbin, etc).
(CYLINDER OPTIONAL - 40C)

99 - INSIDE RELEASE THUMBTURN FOR MORTISE DEADBOLT LOCK

Allows the door to be opened from the inside of the panel. Serves as a safety mechanism.
(Available only with - 40)

45 - MORTISE PREPARATION FOR DETENTION DEADBOLT LOCK

46 - DETENTION DEADBOLT LOCK

47 - DETENTION DEADBOLT KEY

90 - PINNED HEX HEAD CAM LATCH

Recommended for more secure applications. Requires a special pinned allen key to open the access door. Key sold separately.

AK-90 - ALLEN KEY FOR PINNED HEX HEAD CAM LATCH

REGULAR LATCHES:

35 - SCREWDRIVER CAM LATCH

Standard on general purpose access doors. Available in cold rolled steel, stainless steel and galvaneal steel.

50 - HEX HEAD CAM LATCH

Requires a standard allen key to open the access door. Offers added security. Key sold separately.

AK-50 - ALLEN KEY

80 - RING/TOOL KEY OPERATED SLAM LATCH

Standard latching mechanism on all our fire rated models. It allows the door to shut by itself when attached with a spring.

55 - HEX HEAD SLAM LATCH

Requires a standard allen key to open the access door. Offers added security. Key sold separately.

AK-55 - ALLEN KEY

220 - SCREWDRIVER OPERATED CYLINDER CAM LATCH

Available for PAL and LHD models only.

30 - SLIDE LATCH

Allows the door to be opened using a simple sliding action.

OTHER OPTIONS:

60 - GASKET

Recommended to provide weather resistance and to reduce airflow between the panel and frame.

110 - CONTINUOUS PIANO HINGE

Standard on our fire rated doors and usually recommended for use on larger doors. It provides specification compliance when required. Available in cold rolled steel or stainless steel.

140 - LOUVERED DOORS

Allows ventilation for special applications.

160 - HOLDING CABLE

180 - DOUBLE LEAF

Recommended for access to large openings.

240 - MASONRY ANCHORS

Recommended to secure the door in place when installed in masonry.

GY - DRYWALL FLANGE

Only the door will be visible when drywall compound is applied to the corner bead flange.

PLY - PLASTER FLANGE

The 2 3/4" lath flange will disappear when covered with plaster, leaving only the door panel visible.
